# QUARTERLY PORK REVIEW

VOLUME 2, ISSUE 3

JUNE 2011

**WELCOME** to the second issue of 2011's *Quarterly Pork Review*! Again, our thanks to all participants from the pork industry for their continued support and cooperation – especially the producers who provide data for the quarterly *Hogs and Pigs* surveys. Without their commitment and participation, this report would not be available.

This publication is a compilation of related reports issued by USDA's National Agricultural Statistics Service (NASS) in an effort to provide a complete source of statistics relevant to the pork industry.

Though many of the statistics in this publication can be accessed through our website on a monthly basis ([www.nass.usda.gov/Publications](http://www.nass.usda.gov/Publications)), this Oklahoma Field Office summary will be issued each quarter following the release of the USDA-NASS *Quarterly Hogs and Pigs* report.

Please feel free to contact our office with any comments or questions you may have. I hope you find this information useful!

## PRODUCTION AND PRICE OUTLOOK

**Pork Production and Price by Quarter, United States, 2009-2011; Projected: 2nd-4th Quarter 2011, 1st Quarter 2012**

A **slight reduction in pork production** is expected for 2011 and 2012. This will be due to an expected tight feed supply through the 2011-2012 crop year, which will likely put upward pressure on feed prices.

Profitability may decrease slightly for producers due to the higher corn and soybean meal prices.
